Mendix | Google Analytics | Google Ads | Ahrefs | Email Marketing Tools | WordPress | CMS Platforms

Education

- Bachelor of Engineering (Computer Science)
- KLS Vishwanathrao Deshpande Institute of Technology

Professional Experience

Project Manager (Product Marketing & GTM) | Bangalore/Hubli
PROLIM | March 2025 - present

- Lead go-to-market initiatives for Mendix-based low-code solutions, shaping product messaging and supporting market adoption across enterprise customers
- Define product positioning and value proposition by translating technical capabilities into clear business outcomes and customer value
- Partner with product, engineering, business analysts, and sales teams to align product messaging with customer needs, market requirements, and solution direction
- Lead presales engagements including product demos, solution discussions, and customer presentations that support deal progression and improve buyer confidence

- Generated 50+ qualified leads and contributed to ~₹15L+ in pipeline through coordinated go-to-market execution with sales and marketing teams
- Drive demand generation initiatives across website, email campaigns, webinars, and social channels to improve awareness, engagement, and pipeline support
- Published 10+ solutions on the Mendix Marketplace, improving product visibility and supporting adoption of low-code applications
- Incorporated customer feedback and market inputs into messaging and solution evolution, contributing to improved adoption and reduced rework by 15–20%

Digital Marketing Manager | Bangalore/Hubli
PROLIM | April 2023 – February 2025

- Led demand generation and go-to-market initiatives for enterprise and low-code solutions across US and India markets
- Generated 100+ qualified leads through integrated campaigns across SEO, email, social media, and content marketing, strengthening enterprise sales pipeline
- Contributed to ~₹10L+ in revenue by aligning marketing initiatives with sales and presales teams
- Owned campaign messaging and content strategy to improve product visibility, customer engagement, and solution positioning
- Developed sales enablement assets including case studies, webinars, solution overviews, and website content to support customer conversations and GTM efforts

Digital Marketing Lead | Hubli
PROLIM | April 2022 – March 2023

- Managed digital marketing activities including campaigns, content updates, and lead generation across multiple industry domains.
- Worked with product and sales teams to support marketing requirements and customer-facing materials.
- Handled SEO, social media, email campaigns, and website content updates, contributing to 10–15% growth in website traffic and engagement.
- Supported presales activities with marketing content and client communication materials.
- Coordinated with internal teams and stakeholders across regions to ensure smooth execution of marketing initiatives.

Digital Marketing Executive | Hubli
PROLIM | June 2016 – March 2022

- Executed digital marketing activities including SEO, social media, email campaigns, and website updates for enterprise software offerings.
- Created and managed content for websites, blogs, and marketing materials.
- Supported lead generation campaigns and inbound marketing initiatives.
- Assisted in presales support by preparing marketing materials and product-related content.
- Collaborated with internal teams for campaign execution and content publishing.
